October 22, 2010

Dear members of the Riverfront Project Committee:

I want to take this opportunity to thank all of you for hosting such a formative and well run meeting last night.

I was truly impressed by the obvious commitment that you all have to ensure that this project reflects the needs and opinions of those that call this wonderful community home.

As the Village of Tivoli moves closer to the development of the riverfront project, there will be many opinions and ideas shared by those who favor the project and those who may have reservations with the project. However, based on the dialogue that took place last night, I am confident that those of you on the committee will proceed professionally and with sensitivity to the many opinions.

My sincere thanks again for your commitment to this project.

Sincerely,

Bryan F. Cranna
Trustee
